mohamedtahar.com

A Self-taught front-end developer with nearly 2 years of experience in developing highly interactive and user-friendly web applications. Proficient in HTML, CSS, and JavaScript, with a strong understanding of modern front-end framework React. Skilled in translating wireframes and design mockups into responsive and pixel-perfect web pages. Passionate about staying up-to-date with the latest industry trends and best practices to continuously enhance user experiences.

SKILLS

- Web Development
- Responsive Web Development
- HTML5
- CSS3
- Tailwind CSS
- JavaScript
- React JS

EXPERIENCE

- As a web developer, my professional experience has primarily revolved around freelance work rather than full-time positions within companies. With a strong foundation in web development skills, I have independently taken on various projects, showcasing my ability to work efficiently and deliver high-quality results to clients. Although I have not yet had the opportunity to work as a full-time web developer within a company, my freelance experience has allowed me to gain valuable insights into the industry and develop a diverse portfolio of successful projects. I am eager to transition into a full-time role where I can contribute my skills and collaborate with a team, leveraging my expertise to create innovative and impactful web solutions.

EDUCATION

BACHELOR OF COMPUTER SCIENCE

Muhammad Khider University

2022 - 2025
